

# Shock Absorbing Anchored Tool Tethers

## 1" Super Coil™

ANSI/ISEA 121-2018

18 foot Diameter Working Area  
With a 4 foot Retracted Length

### 250% Stress-Free Extension Anchored Tethers For Tools Up To 25 lbs.

Gear Keeper's ergonomic Anchored Tool Tether Series is unique because it has been designed with a low force polyurethane elastic core that has a 2.5:1 stretch factor (3 ft relaxed – 9 ft extended). These tethers have the shortest retracted length combined with the longest extension length, offering significantly more stretch and retraction than competitive bungee-type core tethers.

### Construction / Benefits

- Designed for use with tools that are either too heavy to be attached to a person or when it is more advantageous to anchor the tool to a structure.
- The 1" Super Coil's 2.5:1 retraction capability minimizes entanglement issues when climbing or working in close quarters.
