

“Provide quality products, competitively priced and delivered on time with total customer satisfaction. A simple promise in a complex world.”

Gear Keeper Retractors are built by Hammerhead Industries, Inc., the world’s leading manufacturer of personal tethering equipment including retracting lanyards for tools, gear and instruments. Covered by numerous patents, Gear Keeper products are precision-made systems that keep gear and instruments safe, secure and close at hand.

There is nothing random about our Quality. Our Guarantee.

All of the company’s products are built “Hammerhead Tough” in the USA. Hammerhead Industries warrants its products against manufacturing defects in workmanship and materials. If you are not satisfied with the quality or performance of any Hammerhead product, we will replace it or refund your money within 30 days after purchase through your original dealer or retailer. The warranty is void if the product has been abused beyond normal wear and tear or used for purposes other than intended.

To find a dealer near you or for more information about any Gear Keeper products, contact Customer Service.

Hunting Products

Retractable Gear Attachment Systems

First engineered for SCUBA diving, the Gear Keeper is a rugged, retractable gear attachment system, designed to utilize and protect gear in **severe environments with maximum break strength and durability.**

The Gear Keeper is at the core of an extensive product line that boasts an impressive array of benefits and features. A **patented flushing system** that clears sand and debris from the unit, and is **salt-water proof.** A **patented Q/C Connector System** that provides quick and easy connection/disconnection of gear.

The RT4 Series features **60# break strength**, Spectra/Nylon line and a high-impact housing. It’s available in multiple retraction forces and mounting options.

Speciality product packages combine the proper retraction force, attachment accessories and mounting options for specific applications (ie; Dog Training Transmitters, GPS units, Range Finders, FRS Radios, and Duck Calls). Or you can choose whatever force, mounting option, and end type to create your own combination (Refer to RT2/RT3/RT4 Product Pages)

Tangle-Proof Duck Call Lanyard is the ideal way to hold your calls—separates calls to eliminate tangling, noise and allows calls to be easily located without looking.

New Integrated Gear Holster provides the benefits of a holster with the security/ease of use of a retractable tether.

Grab your gear, use it, let it go — it retracts back every time!

Gear Keeper makes whatever you’re doing easier while preventing loss or damage to your valuable gear.

New Integrated Retractor Holster Systems with their exclusive Lash-Tab strapping system allows attachment to both vertical and horizontal pack straps.

- 1** Slides onto a belt up to 2" wide
- 2** Velcro Loop & Cinch Strap for vertical or horizontal pack straps
