

“Provide quality products, competitively priced and delivered on time with total customer satisfaction. A simple promise in a complex world.”

Gear Keeper Retractors are built by Hammerhead Industries, Inc., the world’s leading manufacturer of personal tethering equipment including retracting lanyards for tools, gear and instruments. Covered by numerous patents, Gear Keeper products are precision-made systems that keep gear and instruments safe, secure and close at hand.

There is nothing random about our Quality. Our Guarantee.

All of the company’s products are built “Hammerhead Tough” in the USA. Hammerhead Industries warranties its products against manufacturing defects in workmanship and materials. If you are not satisfied with the quality or performance of any Hammerhead product, we will replace it or refund your money within 30 days after purchase through your original dealer or retailer. The warranty is void if the product has been abused beyond normal wear and tear or used for purposes other than intended.

Retractable Gear Attachment Systems

First engineered for SCUBA diving, the Gear Keeper is a rugged, retractable gear attachment system, designed to utilize and protect gear in severe environments with maximum break strength and durability.

The Gear Keeper is at the core of an extensive product line that boasts an impressive array of benefits and features: a patented flushing system that clears sand and debris from the unit, is salt-water proof, and will withstand high-temperature environments; a patented Q/C Connector System that provides quick and easy connection/disconnection of gear.

The RT3 series features 80# break-strength and Spectra/Nylon line. The RT2 & RT4 series features 60# break-strength, either Stainless S steel nylon-coated cable or Spectra/Nylon line, and a high-impact housing.

Gear Keeper’s patented 360-degree Rotating Belt Clip allows the retractor to rotate during use, reducing tension and line wear.

The Stainless Steel belt clip is built tough to survive severe and moist environments. In addition, the exclusive interlock feature prevents the Gear Keeper from becoming dislodged.

Combined, all these features make this one tough retractor.

The Standard Belt Clip fits belts up to 2". The Extended Belt Clip model fits Duty belts up to 2¼".

The RT3 series is also available with a Clamp-on Belt Clip (fits up to 2¼" belts) for high security, i.e. prison guards.

Law Enforcement Gear Keeper packages target applications ranging from Lapel Mic Keepers, Side Arm Tethers and specialized Key holder applications.
